

professional custom shadow boards

"Since we started the Lean journey at DSM Coating Resins in Waalwijk (NL) in 2012, 5S is a well-known concept. A good example of the 5S strategy is TnP's shadow boards. TnP delivered the boards quickly, as agreed, tailor-made and in color with the company logo. The boards create a kind of individual identity that increases the backing from the people who use them daily. This is helping DSM Coating Resins tremendously in its efforts to reach a good housekeeping standard".

DSM Coating Resins, Waalwijk The Netherlands**

possibilities

Looking for a professional but primarily visual solution for shadow boards? We create tailor-made boards, with the exact shadows of the tools. We can discuss the options for board material, layout, and of course the graphical result. As a part of 5S, the board should be made highly visual.

Specifications custom shadow board

- standard plate material: Forex (foam plastic (PVC foam)/ 10mm thick/ S400 outdoor quality plate)
- on request every board material is possible
- including full color print (direct print on plate material/ scratch proof)
- custom made design (exact shadow of the tool will be designed)
- design can vary per board; no more-price
- delivery excl. fixing bolts (Forex is easy to pierce (hooks) and mount on a wall)
- mobile standards deliverable (custom made); coated in every RAL color possible
- price indication between the \$ 250 - \$ 350 (excl. VAT); completely depending on the size
- discount possible up to 20% over the total order amount
- quick delivery; production time will take up to 5 working days (after approval proof sheet) + delivery time (depending on location)
